### **AutoCAD (April-2022)**

AutoCAD is used to create and edit technical drawings, architectural drawings, blueprints and civil engineering designs. 3D Drawings for architectural models and 3D models are exported using AutoCAD architectural formats. AutoCAD also offers a CAD application for the modelling of mechanical engineering products such as machine tools. The product version 12 first introduced an option called cloud computing that allows the management of the product remotely, reducing errors due to the absence of a technician in the office. User interface Autodesk 2017 renamed AutoCAD 2018, instead of upgrading to version 2017, to version 2018. The 2018 version is a completely new release that completely replaces the 2017 version. Licensing The AutoCAD Enterprise 2016 and AutoCAD Architecture Suite 2016 software package (formerly AutoCAD LT Architecture Suite) is only available as part of a "pro" package with other products, and is not available as a stand-alone version. It includes the following products: AutoCAD Civil 3D 2016 AutoCAD Architecture 2016 AutoCAD Designer 2016 AutoCAD Mechanical 2016 AutoCAD Electrical 2016 AutoCAD Mechanical is only available in this package. Autodesk replaced the standalone AutoCAD 2006 software with AutoCAD LT 2006. In late 2007 Autodesk made AutoCAD LT 2010 available as a stand-alone product. AutoCAD LT 2010 and the AutoCAD Architecture Suite 2010 are no longer available. History AutoCAD was originally developed by Bentley Systems. In July 1998, Autodesk acquired Bentley and its technology. In December 1999, Autodesk released AutoCAD 2000, an upgrade to the original AutoCAD. In 2002, Autodesk re-released the application with the "Simple Drawing" view, version 10.0. In 2003, Autodesk launched a new version of AutoCAD: AutoCAD 2004. In 2005, Autodesk renamed the product AutoCAD LT. In June 2007, Autodesk released AutoCAD Architecture Suite 2006, incorporating both AutoCAD and AutoCAD LT, and offering professional-level capabilities for architects. On July 30, 2009 Autodesk released AutoCAD 2009 to end of support in 2012. Support for all applications within the Architect Suite, including AutoCAD and AutoCAD LT, ended on July 30, 2012.
