With a JAWS that I bought 7 years ago (6.5 from the cracked version of JAWS), I have no problem even playing World of Warcraft with it. The only issue I've ever had is when I tried to use the Narrator and I put in the wrong path to the speech file. I was able to rename the file that I had to use, but then it wouldn't work at all for the game. I didn't keep them on this computer any more (my home computer), but if you want to play online, make sure it's about 10 years old and you have
