---

complexity. - Ability to clean registry from information that other programs leave on the hard drive. - Ability to delete or free up space.

## Windows Password

Unlocker Pro is a great tool for Windows password recovery. It is not a product that gives you what you ask for. It is a solution that you can use when you are looking for a windows password unlocker tool. It

---

works like a rocket and it does not leave any traces on the system. The only problem that you might have is that it requires a subscription to have it available.

Q: Magento 2.3.6 - 404 on a minicart page

I'm facing a very weird issue on a page that doesn't load properly. The site has been launched 2 years ago and the problem started right after update Magento (2.2.6) to 2.3.6

---

The URL is `www.clansz.com/principales/en/index.php?main_page=minicart` The Magento version is `Magento/CE 2.2.6` If I enter in the link directly the page is loaded correctly (without error) Moreover, I reproduced the same issue on another site that I just launched, with the same version. The problem is that the page is not loaded and the console displays an error `404 Page not found: /`

---

principales/en/index.php?main\_page=minicart This is the header of the page that doesn't load:
