## **What's new in Penguin Panic:**

**Premieres & Teases Video Shots In The Making Based on the #Generation13 hashtag created by “Holding On” director Damian Lee and writer Rob Riggle, Check Six Media/Second Hand Lions is working with Universal Pictures and Fox 2000 to create an all-digital movie based on the messaging of the landmark Save My Life documentary series produced by MTV in 2013. Alisa Mandel, E! Everyone who’s a parent, an influencer or is just social media obsessed knows how important it is to share the latest news in the moment with your followers. We’ve seen it happen: when London Bridge attacked, when Kate Middleton gave birth... and when a father refused to hand over his newborn daughter after the tragic story that went viral in the UK in 2016. In the world of engagement marketing, a viral news story leads to a huge exposure of brands and their logos on a major story about a real problem. And so, Check Six Media has partnered with Westport Films to create an engagement campaign that will amplify the message of the viral Brit Shaming news story through an abundance of selfies, interactive polls and branded messages. Tina Russo, Westport Films As a marketer, I’m constantly thinking about ways to cultivate a brand into the heart of people’s lives. If you put time and effort into a brand, people begin to find you and believe in your authenticity. They might not see the potential of your brand or product. But over time, they begin to experience your brand, which means they experience a smile, a connection, a discussion and a valuable experience. When people find brands, they’re loyal to that brand. Check Six Media will be working with the Make-A-Wish Foundation to share stories and raise money for the charity. Molly Latta, The Make-A-Wish Foundation Look forward to hearing more about this project soon and about Check Six Media and the customized content strategy. Until then, enjoy the stunning soundtrack to the marketing campaign. The theme of this soundtrack, Tipping Point Soundtrack, was inspired by this year’s music festival lineup. I got a chance to chat with Kevin “Rudi” Grisham & Todd Arkin, producers of these tracks, and Keith “PK” Williams - a music journalist and owner/founder of Tracked Collective - about this music festival themed podcast.**

The wound that can never be cured. Darkness that can never be overcome. This game is the current version of the ripoff of Tactics Ogre : Ascension, and I decided to make a tutorial about it. For those who don't know the game Ascension : (Tactics Ogre : Ascension, is a turn-based tactical role-playing game developed by Square and published by Square Enix in 2006. It was the first game in the Tactics Ogre series. The story revolves around a party of heroes and their quest to vanquish a demon king by the name of Lugia. Tensions between two worlds form the basis of the plot and play out through a story of political intrigue as the game progresses. The game has battles featuring hundreds of units, including 3DS exclusive units, versus computer-controlled computer opponents and the story progresses through a series of missions of increasing difficulty. The Siege Engine is a massively multiplayer online role playing game based on the popular MMORPG Final Fantasy XIV: A Realm Reborn. This stand alone project began in 2014 as a part of a larger experiment by former Square Enix designers to create a fantasy MMORPG game. Megalith is the sci-fi real-time strategy game set in a deadly world. It is based on turn-based combat rather than real-time which was first introduced in F.E.A.R 2 as "shotgun combat". Realm of the Mad God 2: Redemption is the fifth main expansion for the game, and the first of the faction-specific expansions. It was officially released on May 11, 2017. The gameplay changes in Redemption allow players to experiment with their character and develop their own play style, with several features designed specifically to improve the player's experience and outcome of battles with other players. The game was officially announced at the end of November 2016 and was released in Early Access on June 7, 2017. The price of the Full Version was reduced from £24.99 to £19.99 on April 3, 2018. It has a single-player campaign that can be played with three different characters, from melee to ranged, and it can be played through either a "story mode" or a "playable mode". A character progression system has also been introduced, and leveling up a character is now based on their level and skill set. On April 10, 2018, it was announced that the game would receive its first major update with major content changes and would be released on April
