The goal of the new tech is to make football action more authentic and allow for more improvisation. With FIFA 22, and HyperMotion technology, we are really making changes and changes to the way players move and we feel that is something people want. We are looking forward to taking this to the next level. FIFA 22 introduces the “Passing Master,” which allows passers to shape their game by adjusting their passing ability. It allows you to play your game the way you want to play and how you want to play it. Matchday will also get a major update. There will be more detailed scouting reports for managers so they have more detailed information about their opponent before the match. [Read: What new features are in FIFA 22 and 21 beta] The overall intention of the team is to mix the best of FIFA ‘16 and FIFA ‘17. We really focused on the experience of what FIFA ‘17 brings as opposed to what FIFA ‘16 brought. Changes in FIFA 21 and FIFA 22 beta What changes are made in F21 beta version? We have enhanced the goalkeeper AI and improved their awareness to the player in front of them. In the tournament mode, we are adding more options for players to play the game in style. In the next update, there are a lot of changes we can make to the manager’s function, the “Passing Master” and AI. There are things we want to improve in the defence and offence. This is a beta, so we will continue to add more features to improve players’ skills and their tactical awareness. What changes have been made in F22 beta version? There have been many fixes and improvements. The AI’s movement has been improved in the ability to make first tackles and their positioning. In the goalkeeping department, a new AI system has been added which has made goalkeepers more aware of the play going on in front of them. In the midfield, we’ve added more movement and positioning options. In the striker department, we’ve added more movement and positioning options. What is the plan for FIFA 21 and FIFA 22? In F21, we will focus on making the game more engaging and make the game more fun to play. The goal of the team is to make the game more engaging and make the game

Play the soccer game you love anytime, anywhere on your PlayStation 4 system, Xbox One or PC. Origin exclusive content and news. Learn more at FIFA.com. FIFA Reveals FIFA 22 - The Journey To mark the release of FIFA 22 on PlayStation 4, PlayStation 3, Xbox One and PC, EA SPORTS has invited you to take a journey with six of FIFA 22's star players. Starting with Alex Hunter and ending with Renato Sanches, we will follow the life and career path of a real-life footballer. As an extra bonus, to celebrate the release of FIFA 22, you can also download the Real Football Collection, a free collection of four of FIFA's classic games that only ever existed for PlayStation consoles. The Journey begins with Alex Hunter. Powered by Football™ You might not know the name, but you know the player. Alex Hunter is a striker and has been since he first picked up a football in East Anglia, England, more than 10 years ago. He went on to represent Ipswich Town and Stoke City, and came to North America and played for Vancouver Whitecaps and the now defunct Vancouver 86ers, before ending up with the Montreal Impact, with whom he was at the time of the interview. In January 2016, he decided to take the next step. As he says, "I felt that it was time for a change; I wanted

to play more minutes, to get into the first team, do well and to try and make an impact." Alex Hunter: Headed Down a New Road On a cold January day, about 150 miles from his hometown of Birmingham, Alex Hunter showed up at Peterborough United training facility to meet with us in person. It was 2.30pm. We followed him into the sports nutrition room, where Alex told us about the sport, the contact he has with his fans and his expectations. We asked him about his career to date, his ambitions as a player and what the game means to him. Alex's early career has been one of tough play with goalkeepers, only to be discarded. His time with his hometown team, Birmingham
