**Diablo 2 Single Player Item Pack 1.13 12**

---

We're currently working on several updates that will help pave the way for the new Crusader tools in the future. First, a few of the more straightforward tools will be released to players soon, including a Diablo III Launcher and the Nightfall Log. With the Launcher, players will be able to launch the game as a mouse action to easily enter nightfall, without having to wait for the quest to complete. The Nightfall Log is a comprehensive log of all the behaviors players will have when they log in under the new gameplay system. These logs can be viewed in-game through the /playerlogs cheat command to learn more about how Nightfall will operate. Developer Comments: With the addition of new challenges and the upcoming Curse of Elohim expansion, we've made it easier to purchase gold from other players at an automated level. In addition, the Basic Game Commands structure will make it easier for players to access and/or create the many other features that are available in the Diablo III launcher. These changes are designed to make it easier for players to level and play in Diablo III. We want to give the Barbarian Warrior more identity while still maintaining his Barbarian fantasy. So, we decided to give him the Battle Cry skill as a new way for him to debuff enemies, which should prove to be a useful utility for players. In addition, we wanted to increase his Life and Defense scaling to ensure that he is the tougher mercenary type. By adding a new dual wielding Barbarian Mercenary, we hope to provide a powerful, fast-hitting merc that challenges the status-quo of common mercenary choice among players.
