If you are the type that has a lot of photos on your computer (or you have an external hard drive full of them) and you would like to group them into albums and show them in a slideshow, then Find My Pictures can help you. It offers features such as adding album art to pictures, batch renaming of images or finding pictures across multiple drives. It also lets you create playlists and has the ability to create a random slideshow. Overall, this software offers you all the features you need to create a slideshow and find them in one app. The software enables you to watch movies while you are working on the project. It enables you to download the videos and audio files from vimeo and youtube. So this software provides you great options to download your favorite movies. With this software, you have more than 200 different slideshows to choose from, many themes for your choice, and you can make your own slideshow with your pictures as per you requirement. You can download your song and movie from different sources and create your own unique slideshow. The Aviary Free photo editor is your solution to create professional-quality photos. It gives you all the tools you need to create attractive and memorable images. The program is easy to learn, but it also lets you take complete control over all your editing options. This can be done from within the editor itself or with the provided quick-cut tool. Use the point and shoot tool to take a moment to study the image and take a closer look at the details. Aviary helps you to improve the focus, exposure, color balance, and vignette settings of each photo.
