## Torrent Game Of Thrones Season 5 720p Torrent ~REPACK~

House of the Dragon is the first episode to be released by HBO's streaming service. Home the Game of Thrones will feature 1,200 minutes of content that does not include a traditional TV broadcast. HBO is releasing the episodes in a non-linear fashion with new episodes available daily for the first two weeks and then released in advance of their broadcast. As they mentioned in their tweet, the House of the Dragon is the first episode to be released by Home the Game of Thrones. In a way, that is very cool. What it means is that the show isn't supposed to be released on the same day as the TV broadcast. One would expect a month or two after to be safe. Thing is, 90% of these files are reuploaded torrents. So, even though you might find a torrent that you like, there is more than a good chance that it's reuploaded somewhere else. Also, keep in mind that reuploading your game is just asking for trouble. Pirated games contain a bunch of malware. Imagine what your audience would encounter. With over 5 million registered users, The Pirate Bay unfortunately also has its share of malicious uploaders. Therefore, you should only download torrents from trusted providers (with a green skull). You can expect 5-6 MBps downloads thanks to over 120 million seeders. So, we're talking about someone else reuploading their games. Technically speaking, using a scene group name on your site is not the coolest thing to do but their reuploads are safe. None of the trusted groups would ever release a virus in their games.
